I think I played this three times last night! It's great - especially knowing the backstory.. I enjoyed this little game. I assume there will be more later? It seemed short, but well done, setting us up for a great adventure, but ends too soon. Good luck to the makers and Godspeed they do good work. I'll be waiting for more.. Keep in context that this game is made by a small independant developer. The game its self isn't bad it just falls short. The trailer in the steam store for me over sold the game experience. On the postives the developer is open to feedback and has fixed bugs that occured in the game. For me it just falls short of me being able to recommend.. Absolutely beautiful game. It can be a little confusing, trying to figure out where to go, but that's also part of the fun. There is a story but it's implied instead of told. It's fairly short, but there is so much packed into it. 9.5/10 for me.. I enjoyed this little game. I assume there will be more later? It seemed short, but well done, setting us up for a great adventure, but ends too soon. Good luck to the makers and Godspeed they do good work. I'll be waiting for more.
