Joji-5 has promised me a surprise if we're able to help the humans survive on this *rock*.

Water is not easy to find here. Resources say *goodbye* when you mine them.

Why do they want to live here anyway?

Inferno cop the game.

Just as over the top and insane as the show too.. Donut County takes the most simple concept you can imagine, and turns it into something addicting and fun.

It's one of those games you just need to jump into without knowing a thing.

Only downside about this game is that it's fairly short, and barely lives up to its price tag.. The best DLC of Fallout 4 imo! It has far greater music than Fallout 4, more interesting story and more creatures! And the role-playing of Fallout 4 improves with this just because of one interaction when a synth asks you if you are a synth and with the shown lore of Fallout 4 and Far Harbor it IS possible. So you can decide that you are a synth if you want to.. A nice module but lacking content unless bought with the "Museum Relic" campaign, so buy in a sale.. Very enjoyable extension to the base game, bringing cool new units and well put together missions.. I honestly wanted to like the game but the awful camera ruins it for me. IF you fancy an alternative to Minecraft and can put with a third person camera, this might be the game. **RECOMMENDATION:** Good Game, if you like reading dialogues over dialogues...

The dialogues are long and well fed with text. It's good, because that is the gameplay you got. Embrace it and hope for the best right?

Each answer you give has influence on the course of the game.

The goal is to reach Earth with every crewmember still alive. But this can be tricky, if you make certain crewmembers unhappy or when you made a wrong choice of events.

You are the director of this... "Movie"

Very basic game with no change in gameplay. Tedious and boring.. Another gem of a DLC, been waiting long time for it. It was great finally play as the Russians, some great maps and expect have to use different play style to all the others.

I would recommend buy it don't read reviews!

. It isn't the greatest soundtrack ever made.

But it definitely suits this game pretty well.

Supporting the developers is always good.

I'm going to simply leave a positive review.

This is a very good game and I did enjoy it.

Hopefully we will see more from this studio.. I must say, for a game that was damn near free this is a gem. I don't feel like I'm playing an RPGMaker title, I feel like I'm playing something that had a lot of time and love put into it. If the rest of the games in this series are as good it's definitely something I recommend picking up, even if it isn't on sale any more.. Totally worth it!
